Expectations:

- Equitation skills in performing smooth elegant maneuvers and transitions score higher. Understanding what the pattern calls for and planning arena space will enhance the performance. There should be a definite distinction in stride length between the jog/trot, extended jog/trot, and lope/canter, with energy.
- This pattern is asking for the athletes' BEST lead changes. The following is the general guideline for scoring lead changes (the scores are maximum possible if every part of the element including the lead change is perfect):
 - Flying Lead Change - maximum possible 10 points
 - Interrupted Lead Change - maximum possible 8 points
 - Simple Lead Change - maximum possible 6 points
- Clearly, the goal is a perfect flying lead change, however, this allows for athletes to work into this maneuver. Remember, perfect means; equitation, hands, change (no steps in an interrupted, few steps in a simple, no disunited steps in a flying and so on.)
- This is an equitation class. Body position of athlete is scored; behavior of the equine is considered the direct result of the athlete's horsemanship skills.

May be ridden Western, Hunt Seat or Saddle Seat
