10.	Break to trot, trot to and around cones		
11.	Halt, dismount, wait to be excused, and lead thru gate		
12.	Overall Horsemanship.		

Judge's Signature: _____

Expectations:

- This class should show the horse's ability to work at a forward, working pace while under control by the rider. There should be time for the equine to negotiate each obstacle just as on the ranch, but there should be no refusals or hesitation when asked to perform any task.
- Allowed one attempt at roping calf head. Athlete should show they can handle a rope smoothly and efficiently.
- Rider aids should be used quietly and unobserved, completing one element and getting ready to execute the next without undue jerking and pulling on the equine.
- This pattern is designed to show the athlete's expertise in the proper use of ropes, keeping the equine under control and completing the ranch job with the least amount of energy involved. Excess use of bit and reins should be avoided and noted in the score.
- Though this pattern should be ridden with more speed and purpose than trail, the athlete should have a willing and relaxed equine at all times.
- Athletes may use two hands with a snaffle or bosal bits only.
- Bit checks are at the discretion of the judge.
